Vision

ICM envisions a world where every childbearing woman has access to a midwife’s care for herself and her newborn
Mission

To strengthen Midwives Associations and to advance the profession of midwifery globally by promoting autonomous midwives as the most appropriate caregivers for childbearing women and in keeping birth normal, in order to enhance the reproductive health of women, and the health of their newborn and their families.
ICM is a key stakeholder and partner towards the achievement of the Sustainable Development Goals (SDGs) by 2030.

ICM’s work impacts on all 17 goals but in particular we focus on SDG 3 – Good Health and Wellbeing and SDG 5 – Gender Equality.

ICM recognises the strategic importance of advocating for midwives to work close to where women live if women and their families are to equitably access quality midwifery services as a key component of achieving Universal Health Coverage.
